

EcoIntense is one of the best employers in the ITC industry

Software provider distinguished in industry competition

Berlin, March 23, 2017 – EcoIntense receives the award “Best Workplaces in the ITC 2017”. With this, the independent Great Place to Work® institute honors the software provider for the second time this year. With EcoWebDesk, the online solution for health, safety and environmental management (HSE) as well as sustainability management, the Berlin-based software specialist is one of the top employers in the information and telecommunication industry. “This award emphasizes that EcoIntense is not only a regional top employer, but is also very attractive to employees and applicants within the whole ITC industry,” says Markus Becker, CEO of EcoIntense.

An extensive anonymous employee survey was the basis of the benchmark study’s evaluation. Additionally, management was polled on beneficial activities and HR offerings in the company. “The award stands for a positive, authentic business culture, especially characterized by values such as trust, fairness, appreciation and team spirit,” says Andreas Schubert, CEO of the German Great Place to Work® institute. Great Place to Work® is a global research and consulting network that supports companies in around 50 countries in creating an employee-oriented business culture.

EcoWebDesk is a comprehensive and integrated off-the-shelf software solution for occupational health, safety and environmental (HSE) management as well as sustainability management. In EcoWebDesk, key indicators and business goals can be aligned with operational requirements, environmental protection regulations, legal norms as well as workplace safety requirements and risk management. The software is suitable for management systems according to ISO 14001, ISO 50001 and OHSAS 18001 as confirmed by DEKRA Assurance Services. EcoIntense GmbH is certified according to DIN EN ISO 9001. The company is headquartered in Berlin, Germany. Further offices are located in Lower Saxony and Bavaria (Germany), Linz (Austria) and Houston, Texas (USA).
